The farmers of the United States have $17,000,000,000 invested in their business—no watered stock either—but they have to dig their living out of the ground, all the same.

The dogs of Chicago are better tax payers than some of the corporations of that burg. The papers say they chip in to the city treasury $5,000 a year more than the street railways do.

Since the 5th of January, John Rockefeller has scooped $24,000,000 as his share of the profits in Standard Oil stocks, but successful as he is as a scooper, he can't eat more than three square meals a day.

An American woman who has been living in London for ten years, where she is pretty comfortably fixed, came home on a visit. While here she secured an American ice-cream freezer, a good stock of maple sugar, and went back to London resigned.

A Chicago telegram of the 6th says that at a conference of Democrats, Silver Republicans and Populists held in that city, Bryan and Towne were decided on as the most available Democratic ticket. From the STAR's viewpoint it looks very much more like Bryan and Dewey.

Didn't Call a Pastor.

It was decided at a meeting of the congregation of the First Presbyterian church Sunday morning to postpone the matter of calling a pastor to succeed Rev. Dr. Peyton H. Hoge, whose resignation to become pastor of Warren Memorial church, at Louisville, Ky., took effect several months ago. The question of making a call at once was submitted to the congregation, but there was some opposition and a motion to adjourn subsequently prevailed, thereby delaying the matter until a further meeting, the time for which will be announced later.

Rev. Dr. Thompson, pastor of the Scotch Presbyterian church, of Charleston, S. C., is expected to preach for the congregation next Sunday.

Senatorial Delegates.

Col. W. J. Woodward, chairman of the county convention, and to whom was delegated the power of naming New Hanover's delegates to the Tenth District Senatorial Convention, which will probably meet in this city on Saturday, the 26th inst., has made known his intention of announcing the delegates to day. It is understood that they will be appointed favorable to Capt. Geo. L. Morton, and that there will be no further contest over the case.

North Carolina's naval hero, Lieut. Anderson, who cut the cable at Santiago, has accepted an invitation to be present during the 20th of May Gala Week at Charlotte, N. C., May 22-23-24-25th. He will go to Charlotte by the Seaboard Air Line. 3t

Street Paving.

Laborers yesterday cut away a number of the unsightly trees on Princess, between Front and Second streets, the same having been on the outside of the curbing from the sidewalk and therefore in the way of the new paving that will soon commence there. The old curbstones were also being torn up, preparatory to placing the new and the work of paving will probably begin very early, though it is understood that the brick have not yet been shipped. The Market street work will probably be taken up first and the surface is rapidly being placed in shape for brick laying. Yesterday a car load of granite curbing was received for the Market street section. It is the famous Rowan granite and came from J. T. Wyatt, Faith, N. C.

Heide Hall.

A correspondent writing from Masonboro yesterday says: "A unanimous resolution was passed by the voters of Masonboro to-night to change the name "Masonboro Hall," to "Heide Hall," in honor of the late R. E. Heide, who took such an active interest in all things pertaining to the welfare of Masonboro. The contract was let to have the new name placed in large letters on the building."

Cutter Algonquin Left.

Under orders of Assistant Secretary Spalding, received Saturday night, the revenue cutter *Algonquin* departed yesterday afternoon at 2.15 o'clock to go in quest of the fifteen men who abandoned the wrecked steamer on the outer Diamond Shoals last week. The delay in getting away was on account of having to stock with provisions.

Election in Dunn.

BOARD OF ALDERMEN

Very Long Session at the Regular Meeting for May Last Night at 9 O'clock.

SUPERINTENDENT OF HEALTH

Dr. C. T. Harper Was Elected—Division in Duties of Office and Dr. Price Chosen "Visiting Physician." Annual Budget Expenses.

Last night's regular monthly session of the Board of Aldermen was rendered very long, the session having continued from 8 until 12 o'clock, which was due in a large measure to the number of matters pertaining to the opening of the new fiscal year, which were not taken up at the last meeting the usual time for the transaction of this business.

In the absence of Col. Waddell, Mayor pro tem. Springer presided and every member of the board was in attendance. Probably the most notable action of the meeting was the changing of certain legislation relative to the office of Superintendent of Health, and the election of Dr. Charles T. Harper to succeed Dr. Wm. D. McMillan, the present incumbent, and the further election of Dr. Richard J. Price to the office designated as "visiting physician," the functions of which are those parts of the Superintendent's work, which has to do with the visiting and prescribing for the indigent sick. The duties of the superintendent proper were defined as all others heretofore exercised by that official and not in conflict with those of the visiting physician. These elections were, of course, made subject to the concurrence of the Board of County Commissioners, who jointly maintain the office with the city.

Another important item of the transactions was the adoption of the budget of expenses for the ensuing fiscal year, and then there were numerous other matters of more or less moment which were given thorough discussion.

Reports from the various committees in their order were heard, but the operations of all for the most part have from time to time been given in the news columns of the STAR.

The matter of the election of a superintendent of health was brought up by Mr. MacRae, chairman of the Sanitary Committee, which had been appointed to confer with the county authorities relative to same. Mr. MacRae said that he was dissatisfied with the work in the Sanitary department of the city but was unprepared to attach blame to any one as he had not had time for investigation. He read from the health report printed elsewhere in the STAR and cited that there appeared to be a laxity in the scavenger system. He said that at the conference with the county authorities it appeared the concensus of opinion that two men should be in charge of affairs of the health office—one to look after contagious diseases and the like and another to have control exclusively of the practice among the indigent persons who apply to the city for treatment. An arrangement, he said, was made whereby the superintendent proper should receive $1,200 per year instead of $1,500 as heretofore and the visiting physician should receive $500 for his services, which are to be incidental and in addition to his legitimate practice. To conduct the office upon this basis, it was shown, would cost only $200 per year more and Mr. MacRae stated that the county would bear the additional burden in common with the city.

A desire was expressed by Mr. J. Allen Taylor at this juncture to have Dr. McMillan with the board in the discussion of this matter and a messenger was dispatched for him. Later the matter was fully gone over and upon the retirement of Dr. McMillan an election was gone into. The recommendation of Mr. MacRae as to a division of the duties and the salaries attached thereto was upon motion of Mr. Taylor adopted.

Mr. Taylor moved the election of Dr. Harper to the position of superintendent and upon second of Alderman Montgomery the motion prevailed. Mr. Montgomery moved the election of Dr. R. E. Zachary to the position of visiting physican and Alderman Hanby the election of Dr. Richard J. Price. Mr. Montgomery withdrew his nomination and it was made again by Alderman Parker, but did not receive a second. Dr. Price was elected.

Under hearing of the report of Streets and Wharves Committee, Mr. Taylor moved that in the interest of public economy the committee be empowered after June 1st to prosecute the permanent improvement of streets to the extent of doing necessary surfacing on streets where excavating has already been done, this provision, however, not relating to operations by individuals. The motion prevailed.

The matter of requiring certain property owners to remove their residences from the lines of the sidewalk on Fifth between Dock and Orange streets, was introduced by Alderman Hanby. There was a diversity of opinion as to the legal status of the cases in question and it was at length decided that the matter properly belongs under the ordinances to the Chief of Police. It was referred to that official.

Alderman Taylor, of the Police Committee, stated that he had in process of preparation a hand-book for the guidance of officers and members of the force. It was a compilation of the ordinances, he said, simplified, and the book would be supplemented by a set of rules governing the conduct of the force. One provision, which Alderman Taylor characterized as commendable, was a rule prohibiting the police from participating in politics. Upon request, copies of the book were ordered printed.

Alderman Taylor, for the Fire Committee, also reported the awarding of the contract to the Wilmington Iron Works for the overhauling of one of the hose wagons at a cost of $249. The only other bidder was J. O. Brown at $285.

Alderman Worth, chairman of the Finance Committee, read the budget of expenses prepared for the ensuing fiscal year. A discussion arose between himself and Alderman Taylor as to the amounts allowed the Fire and Police Departments of the city. Mr. Taylor wanted provision made for 27 regular policemen instead of 26 and the amount allowed for uniforms ten cents per day instead of five, as heretofore. Mr. Taylor's request as to the police involved an increase in Mr. Worth's figures of about $1,000, and the same was granted and the budget so altered. Mr. Taylor's request for the firemen involved the same figures as to uniforms and this also was granted and the budget amended. The amount under the various heads as finally apportioned is as follows:

Streets and Wharves	$ 30,000.00
Police	20,931.50
Fire	21,174.50
Salaries	6,650.00
Hospital	2,000.00
Public Buildings	5,436.50
Lights	8,250.00
Markets	1,160.00
Water Works	6,800.00
Sanitary	3,800.00
Printing, Stationery and Advertising	1,000.00
Prisoners	500.00
Insurance	720.00
Miscellaneous and Extraordinary	2,000.00
Total	$110,422.50

In this connection it was shown that in appreciation of efficient service the salary of the superintendent of streets had been raised to $1,000 per year.

Mr. Worth in making the announcement gave a very interesting summary of the motives that led up to the various appropriations and stated that it exceeded last year's original apportionment by $6,500, but that after the making of the budget last year over $7,000 was made in special appropriations. The usual amounts are allowed the military organizations, and provisions are made for repainting the City Hall and Opera House. In this connection he called attention to the ill adaptability of the City Hall for the purposes designed, and suggested as "food for thought" that some day it might be well to tear away the Opera House and overhaul the city building proper. The annual tax regulation, he said, had been practically revised and would be submitted at the next meeting.

The tax on opera house performances of $5.50 on each was declared inoperative.

The contract for the feeding of prisoners was awarded to Mrs. Jane Sheehan at 7½ cents per meal.

The S. P. Cowan Livery Company was accorded the contract for caring for the city's horses and mules at $9.49 per head. Mr. S. J. Davis, the present contractor, bid $9.95 per head.

The Fore & Foster Company was awarded the contract for lumber and the matter of attending the oil and gas lamps was referred to committee. The bids for arc street lighting and those for the public building lighting were also referred. The Wilmington Street Railway Company only bid for the arc lighting and the figures were $7 per month with the usual conditions. The Wilmington Gas Light company bid $83.50 per year for each arc light and submitted detailed propositions for other lighting, all of which went to the Light Committee for consideration.

Other matters were for the most part routine and the board adjourned with expectation of a called session soon.

City Clerk and Treasurer B. F. King read his monthly report showing the following statement of collections and disbursements during the month of April:

Receipts—Balance from last return, $22,560.44; merchants license $837.43; bar rooms, $1.162; market rents, $190.16; Mayor's court, $35; weighing beef cattle, $5.85; public building, $87.50; miscellaneous and extraordinary, $112.00; dray badges, $1; costs on 1899 taxes, $14 35; costs prior to 1899, $34,78; real and personal property tax for years from 1894 to 1899, $607,05. Total. $25,647.76, which minus balance left on hand April 15th, shows receipts for the month of $13.912.09.

Monthly Fire Reports.

During the month, according to the reports of Chief Schnibben, submitted at the regular meeting of the Board of Aldermen last night, the Wilmington Fire Department responded to 17 alarms, the causes of which were as follows: sparks from chimney, 4; hot ashes, 1; defective chimney, 1; spontaneous combustion, 1; children playing with fire 1; false alarms, 3; unknown, 2; spark from steamboat, 1; lamp explosion, 1; carelessness with fire 2. The total valuation of buildings and contents where fires occurred was $130,050, total losses, $1,177,80.

CRIMINAL COURT JURORS.

Selected Yesterday by Commissioners for the June Term.

Yesterday was the regularly appointed time for the monthly meeting of the Board of County Commissioners, but there was no quorum, Chairman McEachern and Mr. Gabriel Holmes alone being present.

The following jurors were, however, drawn for the coming term of the Eastern District Criminal Court, which will be convened here by Judge Augustus M. Moore on Monday, June 4th:

First week—C. F. Williams, C. D. Gore, W. H. Turlington, E. D. Sloan, W. M. Johnson, J. D. Southerland, H. Maultsby, E. G. King, J. M. Brand, Jno. F. Littleton, Eric Norden, R. D. Tucker, J. H. Curtis, A. W. Jones, E. F. Jones, Geo. T. Grotgen, Jordan W. Branch.

Second week—Joseph Silver, W. J. Croswell, Jr., C. O. Harriss, W. J. Brown, Wm. H. Brown, C. P. Willes, G. C. Dew, Geo. Hevard, W. H. Turley, R. P. Johnson, W. H. Badon, Jno. W. Yarborough, H. W. Bagg, H. W. Penny, Noah McGowan, D. J. Brady, G. S. Boylan, W. W. Young.

Sand-Sucker Cape Fear.

The United States sand-sucker *Cape Fear*, in charge of Capt. W. A. Crawford, which has been at Southport for some time, is now engaged in dredging the channel of St. John's river near Jacksonville, Florida. The *Times-Union and Citizen*, of that city, in speaking of the work done in the river by this powerful apparatus, says:

The *Cape Fear* was built in 1895 by the Hillman Company of Philadelphia, and was constructed for the express purpose of deepening the Cape Fear bar and the Cape Fear river from Southport to Wilmington. When this work was completed several months were spent deepening Cumberland Sound bar, and from there this powerful machinery was sent to Jacksonville to deepen the St. John's bar and river. The dredge cost $57,500, and has paid for herself several times.

Very Sad Death.

Friends of Mr. Chas. O. Alexander, one of the popular salesmen at the store of the Jno. L. Boatwright Company, will sympathize with him in the loss of his young wife, Mrs. Danie H. Alexander, whose death occurred Saturday night at 11.30 o'clock at the home of her father, Dr. L. L. Alexander, of Sloop Point. The funeral was held yesterday morning by Rev. Mr. Sell and the interment was in the family burying ground near Sloop Point. Besides a number of relatives near Sloop Point, the deceased has a sister in this city, Mrs. James King, and to her and the grief-stricken husband are tendered the sympathies of a host of friends in Wilmington.

Company Arrives To-morrow Night.

The Lyceum Stock Company, which is to hold forth all the summer at the Opera House, is scheduled to arrive to-morrow afternoon from New York city. The managers here were advised by wire last night by their Northern representatives, Hallett's Exchange, that the company will leave to-night for this city, and that it is a first class one in every respect.

The Red Men.

Neatly printed invitations in red were yesterday mailed to friends and members of the order in Wilmington, requesting their presence upon the several features of entertainment in honor of the meeting of the Grand Council of Improved Order of Red Men here May 10th and 11th.

CONFEDERATE VETERANS

Transacted Much Business at Last Night's Session of Cape Fear Camp No. 254. The Reunion.

At the regular meeting last night of Cape Fear Camp United Confederate Veterans the following delegates were chosen to represent the organization at the re-union at Louisville, May 30 to June 2nd.

Delegates—W. L. DeRosset, Jno. L. Cantwell, L. S. Belden, O. M. Fillyaw, J. I. Metts, T. D. Meares and F. W. Kerchner.

Alternates—W. G. MacRae, J. L. Matthews, B. F. Hall, DeL. Fillyaw, W. R. Kenan, A. M. Waddell and J. O. Ormsby.

Comrade Eugene S. Martin, Esq., stated that on Saturday, May 12th, at 5 o'clock P. M., a portrait of the Hon. George Davis would be presented to Cape Fear Chapter Daughters of the Confederacy, and that he was authorized by the ladies to extend an invitation to the camp to attend the ceremonies. The invitation was accepted and the veterans requested to meet at the W. L. I armory at the hour appointed.

Rev. Edward Wootten and Messrs. B. M. Roberts and O. C. Hill were elected to membership in the camp.

Circular letters were read from Gen. John B. Gordon and Mrs. Norman V. Randolph asking for contributions to the Jefferson Davis monument fund. The camp appropriated $15 to this purpose and individual members contributed $16.75. Other donations may be made through comrade R. F. Hamme.

The Commander, through the courtesy of the Daughters of the Confederacy and on motion of the camp, was authorized to select marshals for Memorial Day.

The Commander was instructed to apply to the Cape Fear Chapter U. D. C. for fifty "badges of honor" and distribute the same to such members as are entitled to wear them and will pay for the same.

In this connection it is announced with pleasure that the Second Regiment Band has accepted the invitation of the Daughters of the Confederacy to furnish music for the Memorial Day exercises. The organization will march to the cemeterry with the two military companies.

DEATH OF VENERABLE LADY.

Mrs. M. C. Harris Passed Quietly Away Yesterday Morning in This City.

The STAR regrets to chronicle the death of Mrs. M. C. Harris, which occurred yesterday morning at 8 o'clock at the home of her daughter, Mrs. G. M. Altaffer, No. 105 North Seventh street.

Mrs. Harris was in the 83rd year of her age, and had been ill for some time. She was the relict of the late Thos. M. Harris, and was born in Forsyth, Ga., but had been a resident of this city for the past thirty years or more. She was a member of Grace M. E. Church, and endeared herself to many people by her kind and affectionate disposition and loveable Christian character.

Mrs. Harris is survived by four daughters and two sons. They are Mrs. G. M. Altaffer, Mrs. E. S. Warrock, Miss Gussie Harris, Mrs. Georgia Warrock, Mr. R. L. Harris and Mr. W. G. Harris. All live in Wilmington, except the two sons. The former of whom lives in Raleigh, and the latter in Birmingham, Ala.

The funeral will take place at 4 o'clock this afternoon from Grace M. E. Church, and the interment will be in Oakdale cemetery.

Monthly Health Report.

Dr. W. D. McMillan, Superintendent of Health, last night submitted to the Board of Aldermen the following report of the affairs in his office for the month ending May 1st:

Births recorded, 10 white, 27 colored. Deaths recorded, 13 white, 22 colored. Three bodies, two white and one colored, were brought to the city for interment and permits were issued for transportation from the city of five white bodies and one colored body. There was not a quarantine in the city during the month nor a case of typhoid fever reported. The inspectors made 1,029 inspections, finding 34 premises in bad sanitary condition. Special inspections were made to the number of 64. Closets were attended to the number of 954, and 163 orders were issued for deodorizers and two rooms fumigated. The market houses were reported in their usual sanitary condition, the firemen's quarters neat and sanitary, only one of the force having been excused from duty on account of la grippe. The city prison was reported well kept, and the food served prisoners abundant and wholesome. The report closed with the recommendation: "We are feeling the need of the extra force usually put on in the Summer. Hot weather is approaching, which necessitates a general monthly inspection."

Executive Committee Matters.

Though no definite conclusion has been reached in the matter of calling the Tenth Senatorial Convention, which will be composed of delegates from New Hanover and Brunswick counties, Chairman Johnson, of the New Hanover Executive Committee, said yesterday that Saturday, April 26th, would be most probably the date. The time will be made to suit the convenience of the Brunswick delegation and Mr. Johnson thinks the 26th inst. will suit all parties concerned.

Hon. Locke Craig, of Asheville, as previously noted in these columns, will speak in New Hanover on Thursday, May 24th, at a place to be designated by the County Executive Committee. Mr. Johnson says the speaking will undoubtedly take place in the city and that he thinks it is the purpose of the members of the committee to have Mr. Craig speak in either the First or Fifth wards. Arrangements, however, will be made later.

Game With Caswell.

Mr. S. A. Matthews, manager of the Naval Reserves base ball team, is in correspondence with Manager Philip Farney, of the Fort Caswell team, relative to a match contest here on Saturday next, May 12th. While the game has not yet been definitely scheduled it is reasonably certain that it will be arranged and a lively contest is assured, both teams having the advantage of excellent material and good practice. This will in no way interfere with the game nest Thursday between the teams of the Wilmington Light Infantry and O. A. N. Society.

Black Fish Excursion.

A party of anglers of the city is making preparations for an all-day fishing excursion to the black fish grounds, about fifteen miles out to sea, on next Thursday. The party will leave aboard the steamer *Marion* at 4 o'clock Thursday morning, and return on the following night. Mr. J. W. Fleet and Mr. Walter E. Yopp are the promoters of the excursion, which will be the first of its kind this season.

City subscribers are earnestly requested to report promptly at the STAR office every failure of the carriers to deliver their papers. In all such cases steps will be taken to insure prompt and regular delivery

A MOVE IN THE RIGHT DIRECTION.

In Sunday's STAR we published an item from the Salisbury *Truth-Index*, stating that a cotton factory would soon be built at China Grove, to be owned exclusively by farmers, probably the first venture of that kind in this country. There are cotton mills, and doubtless a good many, in which farmers hold stock, but this is the first that we have read of where the farmers are the mill owners and propose to be the mill operators. For years in these columns we have advocated this, as one of the solutions of the cotton problem, one in which the farmer will not only be solving that problem, but benefitting himself while he is doing it. In writing about the co-operative plan for building mills we have urged the cotton planters to take up this plan and establish mills for themselves as could easily be done in any community where cotton is largely cultivated.

Of course the presumption is that there are some planters in such communities who have money at command, or credit enough to command money without dangerously involving themselves. Such men would be the leaders in such enterprises. Thus started it would not require a large amount of ready money to erect the building and the promoters, if the right kind of business men, would find, we think, little trouble in securing the necessary money to equip and put the mill in operation, for cotton mills are good property to bank on. As a matter of expediency these mills would be small in the beginning, increasing with the earnings and profits, if increase were desired, as many mills in the South have been. There are mill operators who contend that the small mill, for various reasons, is the most profitable, but whether this be so or not the small mill, where money is not abundant, is the mill of expediency, as well as of necessity, the mill to begin with.

As far as the co-operative mill is concerned it has passed the experimental stage, for wherever they have been established they have proved such a success that the number has multiplied until many have followed the first venture. The mills in Charlotte are an illustration of this, where of the fourteen or fifteen in operation five or six if not more were built and are operated on the co-operative plan. If this can be done in the town, whose prosperity so largely depends on the country, why can't it be done in the country, where there is as much intelligence, as much industry, as much energy and as much business ability as in the town? Because the planters have given their attention so largely to the growing of the raw material for others to manufacture is no proof of lack of ability to manufacture it themselves, for many of these cotton growers have money invested in other enterprises and are active factors in directing and contributing them.

As the day has passed by when it was necessary to advance reasons or arguments in favor of establishing mills, so there is now no necessity for arguing or trying to convince any thoughtful person that the co-operative factory would be a good thing for the cotton growers, for it is a mere matter of business, in which the business shows for itself and of which every mill established gives an object lesson.

A few of the advantages, however, might be enumerated. The mill is a stimulant to diversified farming, varies the monotony of the farmer's life and lends it more attraction. It also increases the remuneration for his labor by affording him a market for more products of the soil, some of which there was no inducement to grow before because there was no market for them. The mill is an educator and gives the farmers' sons opportunities to become skilled manufacturers of cotton, thus training them to become managers of others and of mills if they chose that as a calling. Many farmers' boys get tired of country life and seek the city, but go without training for any profitable employment and thus are handicapped from the start. With some knowledge of the milling business they would have something to depend on and would start out in the world for themselves with some confidence and some hope of success. The mill puts people to thinking and drawing more people together makes it easier to establish schools for the education of the farmers' children.

These are all good arguments for the mill in the country, even if there were no other strong ones, but as a plain business proposition it not only makes a home market for the farmer's cotton but multiplies its value when he sells it in the form of manufactured goods and saves most of the money he now loses in cost of preparing for shipment, in commissions, handling, transportation, wear and tear, all of which comes out of the farmer. These saved would add very materially to the profits of the producer, but not only these would be saved, but every bale of cotton manufactured even into the coarse fabrics would treble the cotton in value, and bring into the community, if not all to the farmer himself, three dollars to the one the raw cotton brings. With the finer goods the value would increase and the returns be much larger, four, five, six or even more times the value of the raw cotton.

As a plain business proposition should not this take with the cotton grower, who labors and feels fortunate if he clears a couple cents a pound on his cotton? We think so, and these farmers who are to build that mill at China Grove think so too. It is a move in the right direction.

PLATFORM ROT.

The following is one of the declations contained in the Republican State platform adopted at Raleigh:

"We denounce, with indignation and abhorrence, the Democratic proposition that the right to vote should be made dependent upon heredity and thus build up an aristocracy of birth upon the ruins of free government."

This is unmitigated rot. Voting by "heredity" and building up an "aristocracy of birth," forsoothe. A "heredity" and an "aristocracy of birth," which embraces every white man within the borders of the State and every negro who can read and write is a pretty broad heredity and a pretty well diffused "aristocracy of birth," about the most sweeping and comprehensive "aristocracy" that was ever invented.

But talking of aristocracies, haven't the white men who have been and are now running the Republican party been playing the aristocrat all along with the colored brother? Haven't they been insisting that they are the elect whom the negroes must follow and obey, and that while the negroes do the rough work and the voting for them they are to have all the choice plums that the negro's shaking brought down? Haven't the negroes been compelled to take a back seat in the party councils while these white or striped aristocrats ran the machine, and fooled the negroes by pretending to run it for them?

And yet these brazen jawed mountebanks have the gall to denounce a measure which will make every white man within the State and every negro who can read and write on "aristocrat" by birth. We do not wonder, though, that these pie pursuers denounce it, for that is the kind of an aristocracy they are afraid of. With such an aristocracy ruling they would soon be earning their bread in some other and more useful way.

It is said that a billion gallons of water has just run to waste in Denver. But Denver hasn't much use for water.

Millions Given Away.

It is certainly gratifying to the public to know of one concern in the land who are not afraid to be generous to the needy and suffering. The proprietors of Dr. King's New Discovery for Consumption, Coughs and Colds, have given away over ten million trial bottles of this great medicine; and have the satisfaction of knowing it has absolutely cured thousands of hopeless cases. Asthma, Bronchitis, Hoarseness and all diseases of the Throat, Chest and Lungs are surely cured by it. Call on R. R. BELLAMY, Druggist, and get a 10c trial bottle. Regular size 50c. and $1. A QUEER MIX.

The Republicans have got things into a queer mix by their queer legislation bearing upon Porto Rico. According to this legislation the constitution of the United States does not extend to Porto Rico, which is for some time, until Congress decides otherwise, to be governed outside of the constitution, and yet the Governor provided for by this legislation, and appointed by the President in pursuance of it, on his inauguration took a solemn oath to defend and support the constitution of the United States, which they say has nothing to do with Porto Rico.

To have been consistent, they should simply have sworn Governor Allen to support and defend the acts of Congress in pursuance of which civil government was established for the island, and such acts as might afterwards be passed in reference to it. These figure in the government of Porto Rico, but the constitution does not according to their contention, for they deny that it reaches that island. How is he going to support and defend something which has no existence there, or which doesn't need any support or defence since it has nothing to do with the government of those people, nor with the Governor whose duty it is to see the laws administered? In trying to run that island so as to please the trusts, these Republican statesmen have made an awful mix of it.

BOOK NOTICES.

The Sanitarian for May presents an interesting and valuable list of contents, which may be read with profit, embracing a paper, "Camp and Outdoor Life as an Aid to the Permanent Cure of Tuberculosis," by Dr. Bassett Keyes, of Chicago. There is another paper in which mothers will be interested, on "Hens' Eggs in Infant Feeding." Address A. N. Bell, M. D. Editor, 337 Clinton street, New York.

Let There Be Light is the title of a very interesting book by David Lubin, in which he discusses the social, economic and religious questions in an original and forcible style. Whether one agrees with him or not, what he says will be read with interest, because he says it well, and with an earnestness indicative of sincerity. It is a 519 page volume, clearly printed and neatly and substantially bound. Published by C. P. Putnam's Sons, New York.

The reader of solid articles will enjoy the May number of *The North American Review*, which prints a fine list of articles on topics that are now attracting attention in this and other countries. Several of these articles bear directly or indirectly on the Eastern question, and the relations of different nations thereto, in addition to which there are a number of articles on miscellaneous but interesting topics. Address The North American Review, Franklin Square, New York.

The reader will find *The Review of Reviews* for May an exceedingly interesting number, copiously illustrated and abounding in attractive and instructive reading matter. The "Progress of the World," one of the features of this publication, is an encyclopedia of people and events now attracting attention. "Leading Articles of the Month" is also full of valuable information. One of the other papers that will be found interesting is "Military Leaders of the Boers," illustrated. Published by The Review of Reviews Company, 13 Astor Place, New York.

The combination of hatpin and a plucky woman proved too much for four masculine footpads in the town of Derby, Conn. The f. p.'s halted two young women on their way home and demanded their cash, but instead of responding with the cash one of the young women grabbed her hatpin, sprang at the nearest fellow to her and jabbed it into him. The suddenness of the attack demoralized the quartette, who took to their heels and when last seen were about four blocks ahead of the girls, who were chasing them.

A South Dakota man who intends to visit Chicago, and would like to get acquainted with some of the denizens in advance, sent Mayor Harrison a 2-cent stamp with a request to send by return mail a copy of the city directory. At last accounts the Mayor had not fully made up his mind to appropriate a large part of his salary for the necessary postage, in addition to the 2-cent stamp enclosed, to carry it through.

SPIRITS TURPENTINE.

— Chatham *Record*: The fruit is now thought to be safe, and the present prospect is that there will be an abundant crop.

— Charlotte *News*: Mr. Samuel H. Hawkins, who shot himself Friday morning at 10.15 o'clock, at the Buford Hotel, in this city, died this (Saturday) afternoon at 2.20 o'clock.

— Greenville *Reflector*: The body of Mr. Lewis B. Elks, who on Sunday was drowned in Chicod creek, was recovered Thursday night. Parties had been dragging for the body since Sunday. He was found about one hundred yards from the place where he fell in. ——We hear that the store of Mr. S.C. Whitehurst, at Grindool, was broken into a few nights ago and a small sum of money stolen. It is reported that some stores at Bethel were also recently robbed. Robbing stores and post-offices are becoming of too frequent occurrence. There seems to be organized gangs going about the county, committing such crimes.

— Edenton *Courier*: Monday, April 25th, a negro by the name of Hathaway was brought to this town upon a warrant and placed in jail. Thursday morning he was brought before a magistrate in the court room and from among the vast throng he was identified by a Mrs. Baker, a young white woman, as being the same man that went to her home the Monday before, and finding her alone he attempted an assault upon her person by seizing her by one wrist and the throat, choking her so that she could not give an alarm. A noise at the barn frightened him and he released her and fled. The news of the assault spread and soon the perpetrator was suspected and a warrant was issued for his arrest as above stated.

— Rocky Mount *Argonant*: The Burt gold mine, in Warren county, near the famous Portis mine, is proving a bonanza. The placer shows on bed rock ore which yields as high as $3.50 per pan. The present workings are on the most primitive plan but still big money is being made. One small "tom" worked by three men yielded $88 dollars in one day, and $90 to $30 to the "tom" per day is quite common. The Eastern Gold Belt is entering an era of prosperity that will rival, if not eclipse, the famous days when the "Portis was turning out its millions of virgin gold. ——From present indications this will be one of the largest fruit crops we have had in many years. ——Tobacco plants are very scarce. Farmers have not planted very large beds and those planted are showing up badly. A large per centage of the seed did not come up and what did does not show well.

— Kinston *Free Press*: John R. King, a white man about 27 years of age, was arrested at Dover by Deputy Sheriff Albert Phillips and lodged in the jail here charged with rape. King is first cousin to the girl, Emma Moore, a 19 year-old girl living at Cadez. He was in the habit of associating with the girl, and the parents placed implicit confidence in him, he being a relative of the girl. —— A negro is in jail who has made the statement that he knows all about the shooting of J. H. Tweedy. It is thought probably that some developments will come out at the present term of court, but at the request of officers we keep back the names of parties and other facts. —— Mr. T. J. Emerson of near LaGrange, tells us of a sad accident that occurred in his section yesterday. Julia, the 14-year-old daughter of Mr. John T. Hill, of Falling Creek, was in the field in company with her two sisters, aged about 12 and 17, burning some corn stalks, when her dress caught fire. She attracted the attention of her sisters by hollowing, and they ran to her aid. They were unable to put the flames out so carried her to o ditch which was about thirty feet distant, and by the use of mud and what little water could be gotten out of the ditch at length succeeded in extinguishing the flames. While being badly burned, it is not thought her injuries will result fatally.

CURRENT COMMENT.

—"I say, my fellow-Republicans," announced Uncle Marcus Hanna at the Ohio convention, "that we want to commence now to do business." This will be welcome news to those with whom Uncle Marcus has before done business, in his own particular way.—*Louisville Courier-Journal, Dem.*

—— The tin-plate trust has made the demand of workman that one more boy be employed at $3 per week, the pretext for shutting down a big plant at Wheeling, West Virginia. As in the case of the steel and wire trust the real object of the shut-down was, of course, to force up the price of the product by diminishing the supply—*Norfolk Virginian-Pilot, Dem.*

—— General Miles, who advocates war on the ground that it "makes men better and women nobler," differs in this as well as in other important respects from General Tecumseh Sherman, who said: "War is hell!" Much depends upon the kind of war. A war, for example, to collect $90,000 from Turkey at a cost to the United States of $100,000,000 could not possibly be of a very edifying or ennobling character. — *Philadelphia Record, Dem.*

—— Mr. Belmont, of New York, expresses the opinion that the war in the Philippines "is a mere Republican-invented market to sell such products as Armour beef, Carnegie steel, ammunition, etc, and the manufactures of other Republican pets to the extent of $20,000,000 a year. These are the people who furnish guns, ammunition, clothes, beef, so forth, and it is for their benefit that the Republicans are spending $200,000,000 per annun." There is probably a great deal in Mr. Belmont's view. The republican Senators, it will be noted, voted with great harmony two days against putting the army contracts out of reach of the trusts and combines.—*Charleston News and Courier, Dem.*

You complained the other day that there was too much talking about this house any way." "Yes, dear; and since I can't have less talking, I can at least have a change occasionally."

— A Rare Old Jest—The Khalifa rended his garments. "The lion's teeth are drawn at last!" he wailed, in poetic reference to the late defeat of his arms at the hands of the Anglo-Saxon. But the court jester remained quite buoyant. "Yes, the lion will have to gum Arabic from now out!" observed this functionary. Hereupon there was much gaiety in the royal tent, and adversity was for the nonce forgotten.—*Detroit Journal.*

COTTON MARKETS.

By Telegraph to the Morning Star.

NEW YORK, May 7.—Speculation in cotton futures to-day was slack and the variations in prices were few and far between, at the most between four and seven points on the more active positions. The opening call developed a quiet feeling, with prices unchanged to three points higher. The improvement was attributed to Liverpool support. Public interest, however, was small. After the opening sentiment became a little easier in the absence of outside interest, while, if anything, the later crop news received a more bearish construction. Selling was retarded partially by the small movement of old cotton. On the other hand, however, reports reaching 'change from dry goods points were not at all encouraging and the trade was uncertain which way to turn. During the afternoon it was strictly a local waiting market and very dull. The market closed quiet but steady at a net advance of two to seven points; latter price being on May only, and was due to a flurry of covering within the last five minutes.

NEW YORK, May 7.—Cotton was quiet; middling uplands 9¾c.

SWEATING GOLD COIN

THIS TRICK OF SWINDLING IS EASILY PERFORMED.

Aqua Regia, a Mixture of Nitric and Hydrochloric Acids, Does the Business—John Chinaman Has Even a Safer Way of Juggling Coin.

Sweating a coin is merely robbing it of a portion of its legal weight without in any manner altering its appearance. Manifestly gold coins alone would hardly appeal to the sweater, for silver would hardly pay for the trouble. In countries where paper money is employed, sweating has taken no root. Also in countries like England, where the largest gold coin is a sovereign, the practice would hardly become epidemic. On the Pacific slope at one time the nefarious business assumed such proportions that the government found it necessary to pass measures against coin sweating, but even then the manifest injustice of arresting a person for merely "passing" such a coin, such person being almost certainly quite innocent, appealed to legislators to such an extent that the law was made only to affect the actual manipulator of the unlawful process. The consequence of this has been that the authorities have had the greatest difficulty in securing convictions against the malefactors, who have debased no end of coins.

The process of robbing a coin of a part of its metal is simple. The goldpiece is merely immersed, or suspended, in aqua regia, a mixture of nitric and hydrochloric acids, which attacks the metal at once. The manipulator keeps the piece in the bottle only a short time, for a few minutes suffice for the mixture to absorb and hold in solution as much as a dollar's worth of the gold from a $20 piece. The coin is then washed in water and polished with whiting, as otherwise its surface would betray the ordeal through which it had been passed, showing "pockmarks" in great variety.

The process is continued with other coins until the acid is "saturated," when it will absorb no more of the metal. The coins are exchanged for silver or other currency, as only an expert could detect the small subtraction in weight, and the silver is then re-exchanged for more gold, upon which the operator performs his little game in due course. It is only necessary for the villain to boil down his acid to complete evaporation, when the residue in the kettle will be found in the shape of a gleaming button of pure gold, varying in size according to the amount of acid and the charge it carries in solution.

In San Francisco the government secret agents have waged a long and bitter war with sweaters. They have captured many who were guilty enough in all conscience, but against whom no conviction could be obtained for lack of evidence, and they have placed others beyond all worldly temptation for various terms of years. One of the lone kings of this nefarious business, who finally was obliged to sojourn for a rest in the penitentiary at San Quentin, was named Goodrich. He was an exceedingly modest and retiring man. He occupied an ordinary dwelling and conducted his operations on the roof. After many long weeks of vigil on the part of government detectives he was taken into custody, not redhanded, but at least black fingered by the acid. His apparatus was found most cleverly concealed behind movable bricks in the chimney on top of his house. At the time of his capture a small bottle of greenish fluid was found, and this, upon being carefully reduced in fumes, yielded up a button worth fully $10. A few coins were discovered in the man's pockets and also in his residence. These, to all appearances, were honest coins. Under the microscope they were found to be fairly cross hatched with tiny lines, which had been produced by the process of polishing to remove the traces where the acid had eaten away the metal.

Insidious as this acid thieving may appear, it might be regarded as crude by those who are acquainted with the "tricks that are vain" exercised by the "heathen Chinee." John Chinaman is numerous in California. He gets his long hands on many a golden disk, and with great reluctance does he ever relinquish his grip. He has never learned the "art" of sweating the coins with acid, but he accomplishes his purpose in his characteristically patient manner. He simply places many coins together in a buckskin bag and then proceeds to shake and toss and otherwise agitate that receptacle by the hour or by the week until he has worn off by abrasion $10 or $20 worth of fine dust of gold. The coins wear one another. They present the appearance when at length they emerge from the sack of having been regularly abraded by pocket to pocket circulation, and therefore to all intents and purposes nothing illegal has been done. As a matter of fact, no Chinese has ever been apprehended or put on trial for this work. It is doubtful if the authorities have ever taken cognizance of the practice. Only a few people ever realized what the sly Celestials were at when witnessing the hourly agitation of the coins. It is of course unlawful to bore a hole through a gold coin or to perform any other mutilation, but Mr. Chinaman cannot be said to mutilate the money he wears out so artfully, and therefore he pursues his course serene and unmolested.

There have been clever rogues from time to time who employ a slender tool with which to "gut" a coin. Their method is to make a small incision in the edge of a coin and then patiently dig out the inside, after which they refill the hollow space with baser metal. "High art" like this has become almost obsolete, for the acid business has frequently proved safer and less difficult of performance. Laws will multiply and detectives will wax more and more like Sherlock Holmes, but the makers and administrators of penal regulations will be obliged to arise early in the morning to prevent for all time the effort of man to accumulate his "pile" for "nothing."

The Scot's Gratitude.

An old farmer coming home from the Paisley market lost his pocketbook, containing a considerable sum of money, in the station. He looked for it, but could not find it, and had given up all hopes, when a newsboy said to him, "Here, mon, A've fun' yer book."

The guidman was overflowing with gratitude, and expressed himself thus: "Thank ye, ma lad. If ye happen tae be passin oor farmhouse step in an A'll gie ye a guid drink o' soor milk."—Scottish American.

The total number of battles fought during the American civil war reached the astounding figure of 3,125. The figures are taken from the official records.

He Barred Sawing Wood.

As will be seen, it makes a great difference how one uses the muscular resources at one's command. A member of an athletic club after swimming the length of the large tank in the basement of the institution, came out puffing and blowing, apparently exhausted.

"You don't manage your breathing right," said the swimming instructor. "It ought not to tire you so. As to the upper part of your body, including your arms, you use exactly the same muscles and in very much the same way in swimming as in sawing wood."

"No, sir!" gasped the swimmer. "When it comes to that, I use the muscles of some other man."

Dignity.

I ought not to allow any man because he has broad lands to feel that he is rich in my presence. I ought to make him feel that I can do without his riches, that I cannot be bought—neither by comfort, neither by pride—and although I be utterly penniless and receiving bread from him that he is the poor man beside me.—Emerson.

Manna a Fungus.

It seems that in the present day Arabs who are obliged to traverse the sandy wastes of Arabia depend to a large extent upon "angel's food" both for themselves and for their camels. The manna is in reality a fungus which is found in great quantities on the sand after rain. Of a gray color and of the size of a pea, it has a pleasant, sweet taste, and although its analysis shows that it is by no means a perfect food, it is sufficiently rich in nitrogenous matter and carbohydrates to sustain life for a long period.—Chambers' Journal.

Is It Satisfactory?

That's the question that goes with every purchase here. If it's not satisfactory, bring it back today—to-morrow—next week—and get your money. It is this absolute assurance of fair dealing that retains our trade. Our customers know that "money back" is not a cry set up to deceive the unwary into buying, followed by all sorts of undue excuses and quibblings to avoid returning money on displeasing purchases. One of our maxims reads: "For you to remain dissatisfied is to make us more dissatisfied." It isn't to-day's trade we're depending on—it's to-morrow's—next week's—next month's—next year's! We want you to be so well pleased with your treatment here and with what you buy here, that you'll come again and again. And we will remark right now that our efforts to please have been so uniformly successful that calls for "money back" are rarely made. But it's here just the same, for any and all demands that may be made for purchases returned as undesirable.

TUESDAY MORNING, MAY 8, 1900.

UNIVERSITY OF N. C.

President Alderman Resigned to Accept Presidency of Tulane University. His Letter of Resignation

[*Special Star Telegram.*

RALEIGH, N. C., May 7.—President Edwin A. Alderman, of the University of North Carolina, has decided to accept the call to the presidency of Tulane University. He to-day tendered his resignation as President of the University of North Carolina, to take effect on June 15th, 1900. "I take this step," he writes, "after patient study, in order that I may accept the presidency of Tulane University of Louisiana, to which I was elected on April 5th, 1900. This decision has been reached in the belief that it is just to my professional life and to wider opportunities for educational service that I make the change. I have tried very hard to do the right thing all along large lines, and to eliminate from this problem the commonplace and the sordid. If I have seemed to take undue time to act, it is because time has been needed to see with even partial vision the path to tread. I have a firm belief that every thoughtful man who has had this matter in mind at all will know something of the hurt of mind and heart through which I have passed, and the conflict of duty and emotion in which I have struggled. I do not need to say that my heart has been touched by the evidence of appreciation, all too generous and undeserved, from the people of the State whom I have labored for since manhood, from your honorable body so helpful and just to me always, from faculty and students of this institution, in whose service I have known the joy of striving. I count its appreciation the finest reward of a life of some toil and struggle for the upbuilding of my native State."

DOCKERY-BELLAMY CASE.

Republicans on the Elections Committee Unable to Agree on the Matter. Judge Ewart's Case.

[*Special Star Telegram.*]

WASHINGTON, D. C., May 7, 1900.—The Republican members of the House Committee on Elections No. 2 met again to-day and discussed the Dockery-Bellamy contested election case from North Carolina, but it is understood that they could not agree and the matter went over until to-morrow.

The Senate Judiciary Committee to-day postponed action on the Ewart case until next Monday, when the committee, it was said to-night, will dispose of it one way or the other. It developed to-day that Judge Ewart has several friends on the committee.

On motion of Representative Small to-day, the House passed the Senate bill appropriating $12,500 to authorize the establishment, at some point in North Carolina, of a station for the investigation of problems connected with marine fishery interests of the Middle and South Atlantic coast. The bill now goes to the President.

RALEIGH, N. C., May 7.—Democratic State Chairman Simmons to-day wrote a letter to Republican State Chairman Holton, asking for a joint canvass of Democratic and Republican candidates on the State ticket.

At a meeting of the trustees of the Baptist Female University, this afternoon, the resignation of President Blasingame, handed in some weeks ago, was accepted, and Rev. John E. White, Secretary of the Baptist Missionary Board, was elected to succeed him. Mr. White asked tor ten days in which to consider acceptance.

ROBERTS SWEEPING ON TO PRETORIA.

Boers Everywhere Retiring Before the British Towards Kroonstad Hills.

SITUATION AT MAFEKING.

The Garrison in Bad Straits—Fever Spreading—Free Staters Menace the British Line of Communications—Other News.

By Cable to the Morning Star.

LONDON, May 8, 4.20 A. M.—The Boers are everywhere retiring before the British, except on the Natal frontier and at Mafeking, to the inner circuit of the defences. They appear determined not to fight until the Kroonstad hills are reached.

Lord Roberts is expected to do another forty or fifty miles and then to wait for a time in order to bring up supplies and to repair the railway. There are one or two hints in the dispatches from the front that he may rest for a few days at Smaldeel.

Gen. French's 10,000 cavalry have not been mentioned in the official or unofficial dispatches for four days. It is by no means likely that he is idle, and the conjecture is that he is either going toward Kroonstad or raiding the Ladybrand district.

Fifteen thousand British are now operating on the western frontier of the Free State.

As the dead lock at Warrenton has been broken and the Boers are retreating, there is nothing formidable except distance, between Warrenton and Mafeking. The most hopeful advices from Mafeking on April 22nd were that the the garrison would be barely able to hold out for a month. At that time fever was sprading.

According to advices from Maseru, Basutoland, several thousand Free Staters are north of Ladybrand, where they have collected great herds. The district is rich in food for men and horses and the Boers seem resolved not to move northward, but to be preparing to resist where they are. If they are let alone they will menace the line of communication after the main British army has passed into the Transvaal.

Advance on Pretoria.

LONDON, May 7.—The capture of Winburg by the British is confirmed and the main advance to Pretoria continues with the machine-like precision and rapidity which has characterized all Lord Roberts' forward movements. By the occupation of Winburg General Ian Hamilton puts himself nearly parallel with Lord Roberts and only twenty-nine miles eastward, while he has the additional advantage of being connected with his chief by means of the railroad that runs from Smaldeel, or Winburg road station, as it is sometimes called, to Winburg.

The only feature of the carefully devised plan of general advance not disclosed by the swift developments is the part that General Buller has elected to take in the operations. At present there are no indications of any movement on the part of the Natal army. Doubtless a few days or less will bring out the British line of action before the Biggarsberg.

Lord Roberts is now nine miles north of the Vet and sixty-three miles north of Bloemfontein. The Boers are retreating towards Kroonsdad.

General Hunter is presumed to be pushing steadily forward in the direction of Mafeking, aided by the aggressiveness of Barton's and Paget's brigades.

The critics of the afternoon newpapers view the situation with the greatest satisfaction.

The Occupation of Winburg.

A special dispatch from Smaldeel (Winburg road station), dated 9.45 P. M. Sunday, May 6th, gives details of the occupation of Winburg by the British. It says:

"News has just come here that Gen. Hamilton is giving the Boers no rest and that they are falling back hurriedly. He entered Winburg to-day after a brisk fight, in which the Boers fell back so quickly that one of their guns, in addition to a Maxim, was abandoned."

The same dispatch, describing the crossing of the Vet river by the British, says:

The Boer forces entrenched on the opposite bank prepared to contest the crossing. Our guns were brought into play and a terrific shell fire was directed on the Boer lines. At the same time the Queenslanders, under a heavy fire, dashed across the river and advancing in the open, completely turned the Boer right. It was dusk, but nothing could stop the gallant Australians. They pushed on again, seized a commanding kopje and by brilliant movements and continuous rifle fire drove off the enemy in the darkness. The first gleam of dawn this morning found the enemy in full flight and our men after them, and by 9 o'clock this morning we entered this important strategic point."

Methuen's Movements.

A dispatch from Boshof, dated Friday, May 4th, says General Methuen made a reconnoissance from there the day previous to the neighborhood of Sjartkoppiesfontein, locating the Boer laager. After an unimportant exchange of fire the Boers removed their laager. A fairly strong force of Boers was seen moving northwards. General Methuen then returned to Boshof.

WARRENTON, CAPE COLONY, May 7.—The Boers have been driven out of Fourteen Streams and the British are now encamped on the north bank of the Vaal river.

FURNITURE FACTORY BURNED.

Plant and Cottages of the Ware Company at Atlanta—Loss $200,000.

By Telegraph to the Morning Star.

ATLANTA, May 7.—The factory of the Ware Furniture Company, one of the largest manufacturing plants of its kind in the South, just outside the city limits, was burned this afternoon. Forty cottages, occupied by people employed in the factory, were destroyed, many of the families losing all their effects.

Wm. Dickinson, a fireman, was badly burned, and Thomas Varner was carried from one of the burning cottages in an unconscious condition. The loss to the factory and on the cottages will be about $200,000, with insurance about one-half.

This is the most serious fire Atlanta has had for years and the entire department was sent out. A high wind was blowing and the inflammable nature of the buildings made the firemen's task almost hopeless from the start. The spread of the flames was so rapid at one time that one company of firemen was compelled to abandon a hose cart, which was burned.

President McKinley has been invited to be present during the 20th of May Gala Week at Charlotte, May 22-23-24-25th. Greatly reduced rates by the Seaboard Air Line. 3t

COHORTS ARE GATHERING.

Populists Swarming at Sioux Falls, S D Butler Talks About the Selection of Candidates.

By Telegraph to the Morning Star.

SIOUX FALLS, S. D., May 7.—The delegates to the Peoples party convention who have already arrived spent the afternoon in informal conference and in visiting the tent in which the convention is being held. This is an enormous tent and can seat eight or ten thousand people and it is rapidly being put in shape.

The principal talk to-day has been about the policy to be pursued in the selection of a vice presidential candidate.

By those already present, there is manifested quite a noticeable friendship for Hon. Charles A. Towne, the silver Republican leader of Minnesota, but there are some who contend that the honor should go to a Populist.

Senator Butler is among those who are believed to favor Mr. Towne. In an interview he said: "We are going to be liberal with the other parties who are co-operating with us on general lines. In 1896 we took Bryan after he had been nominated by the Democrats and we stood loyally by him to the end of the campaign. This year the People's party is going to be the first party to put him in the field, and so far as have been able to discover there is very general disposition towards going even farther if need be and selecting a candidate for the vice presidency who will be acceptable to the silver Republicans. Those whom I have seen are perfectly united upon the proposition that all must be done that it is possible to do to secure absolute harmony among the Populists, Democrats and silver Republicans in the support of Mr. Bryan, and I believe the party will be found equal to the surrender of both nominees in order to secure this paramount desideratum.

Asked if he did not refer in his remarks just quoted to the possibility of the nomination of Mr. Towne for the presidency, the Senator said:

"I do not go the extent of mentioning names in connection with the vice presidential nomination, but I don't mind assuring you as to the head of the ticket. I have heard no dissent from the proposion to nominate Mr. Bryan for that position and I have no doubt that the nomination might be made by acclamation. As to the vice presidency, I will only say that I discover a disposition to give the nomination to a silver Republican, if a man is found upon whom that party can unite. We recognize that one of the three parties must make a sacrifice and I believe our people will be found ready to make it if necessary."

As to the bolting Populists, who are to hold their convention in Cincinnati, the Senator said: "They represent nobody but themselves and need not be dignified by a reference to them."

SEVERE STORM IN TEXAS.

Another Flood in the Brazos—Cyclone at San Antonio—Hotel at Bastrop Destroyed—People Injured.

By Telegraph to the Morning Star.

SAN ANTONIO, May 7.—A destructive cyclone wrecked the San Antonio Loan and Trust Company's five-story steel and terra cotta building this morning. The loss is about $70,000. The building was not insured. The wind velocity was sixty miles an hour.

Two box cars were blown across the tracks of the main line of the Arkansas Pass railroad in the yards here, causing the wrecking of an incoming excursion train from Corpus Christi. The fireman was the only one hurt.

GALVESTON, May 7.—The telegraph service to the interior of the State is prostrated, owing to a serious wind, rain and electrical storm this morning. The Brazos river is bankful near Thompson and the lowlands for miles on either side are flooded.

DALLAS, May 7.—The destructive wind and rain storm that struck San Antonio this morning seems to have been general in Southwestern Texas. At Bastrop the Midland hotel was wrecked and Charles and Lizzie Wilkes, children of the proprietor, were badly hurt by falling timbers. The hardware store of R. & G. Stark was partly destroyed. Fears are felt as to the result in the surrounding country.

TAKEN FROM OFFICERS AND HANGED.

Unknown Negro Who Had Confessed His Guilt Lynched in Alabama.

GENEVA, ALA., May 6.—An unknown negro, about twenty years of age, barefooted, and of a ginger color, was lynched three miles from here yesterday. He assaulted a twelve-year old white girl near Hartford, in this county, on Tuesday, and was captured two days later and taken before the mayor at Hartford for preliminary trial. He confessed and was remanded to Hartford for trial.

The officers claim that when about three miles from Geneva they were overpowered by armed men, who took charge of the prisoner and carried him into the woods. He was found dead, hanging to a limb not far from the public road leading from this place to Hartford.

TELLER'S SPEECH IN THE SENATE.

Strongly Urged Adoption of His Resolution Extending Sympathy to the Boers.

NOT UNFRIENDLY TO BRITISH.

Appropriation Bills—The House Proceedings—Amendment to Pension Laws. Bill Passed Increasing Appropriations for the Army.

By Telegraph to the Morning Star.

WASHINGTON, May 7.—At to day's session of the Senate, Senator Teller, Colorado, delivered a speech in which he strongly urged the Senate to extend its sympathy to the Boers in their contest with Great Britain. He devoted himself to a discussion of his resolution, the adoption of which, he maintained, could not be considered as an unfriendly act by the British Government. During the remainder of the session, the Senate had under consideration the Naval Appropriation bill. Senator Chandler's amendment to curtail the increase of the marine corps created some debate and was finally laid on the table—30 to 14. The bill was not completed. Notice was given that the armor plate provision would be considered in secret session, on account of certain facts that were to be called to the Senate's attention.

A House bill to provide sittings of the circuit and district courts of the United States in Florence, S. C., was passed.

The Senate agreed to the request by the House for a conference on the Army Appropriation bill and Senators Hawley, Sewell and Cockrell were named as conferees.

A conference was also agreed to on the Fortifications Appropriation bill, Senators Perkins, Warren and Pettigrew being named as conferees.

Senator Teller, of Colorado, then called from the table his resolution expressing sympathy for the Boers and addressed the Senate.

He said it was argued that the Boers were not struggling for liberty, but were simply in rebellion against the British Empire, which claimed dominon over them. He regarded this as a begging of the question, unworthy of serious consideration. He maintained that Great Britain had no justification for the claims it made upon the Boers and the South African republics.

Senator Teller paid a high tribute to the Boers as a people, denominating them as a "kindly, brave, wise and Christian people."

A bill was then passed constituting Durham, N. C., a port of delivery in the customs district of Pamlico.

At 5 P. M. the Senate adjourned.

House of Representatives.

This was suspension day in the House and quite a number of bills were passed. The most important was the Senate bill to amend the general pension laws so as to provide for aggregating disabilities under the act of 1890 without regard to service or origin and to increase the net income a widow may be possessed of without destroying her right to a pension from $96 to $250. The purpose of the bill is to modify rulings of the pension office in accordance with the recommendations of the G. A. R. Many members made speeches on the measure and it was passed without a dissenting voice.

The bill to increase the appropriation for the National Guard from $400,000 to $1,000,000 was also among those passed.

Mr. Selzer, New York, attempted to secure action upon his resolution expressing sympathy with the South African republics but was cut off by the Speaker.

A bill was passed to authorize the repair of the roads to the national cemetery at Newbern, N. C.

A bill was passed authorizing the establishment on the coast of North Carolina of a station to investigate problems connected with marine fisheries interests in the Middle and South Atlantic States, at a cost not to exceed $12,500.

At 4:20 p. m. the House adjourned.

AMERICANS KILLING FILIPINOS

Garrisons in Visayan Towns Attacked by Natives—280 Killed—American Loss Two Men Wounded.

By Cable to the Morning Star.

MANILA, May 7.—The rebel attacks on the American garrisons in the Visayan islands recently have resulted in killing of 280 of the enemy and the wounding of two Americans.

At daybreak, May 1, four hundred rebels, a hundred of them armed with rifles, attacked Catarman in Northern Soanar, in the vicinity of Catubig. Company F, of the Forty-third regiment, was garrisoning the place. The enemy built trenches on the outskirts of the town during the night and fired volleys persistently into it until the Americans, charging the trenches scattered the Filipinos and killed 155 of them. Two Americans were wounded. This attack was precipitated by the enemy's recent successful fight at Catubig. The garrison of Catarman has been removed to the seaport of Laguan.

A force of Filipinos estimated to number 200 men armed with rifles and six hundred armed with bolos and operating four muzzle-loading cannon, attacked Jaro, on Leyte island, April 15th, which place was garrisoned by twenty-five men of Company B, of the Forty-third regiment, Lieutenant Estes commanding. Estes left fifteen men to protect the town and with the remaining ten men he advanced on the enemy in two squads, sheltered by the ridges south of the town, whence they stood off the Filipinos for three hours. Then twenty armed members of the local police force sallied out to help Estes' Americans. The latter with the police charged the enemy and altogether they dispersed the Filipinos and after the fight was over buried 125 of them. There ware no American casualties.

Fire last night destroyed a large part of the dock and sheds of the New Jersey Storage Company, connected with the Standard Oil Company's Constable Hook works, causing a property loss of $500,000.

FIRE AT MOUNT OLIVE.

Visited by Another Serious Conflagration Sunday Night—Losses Aggregate More Than $4,000—Incendiary Origin.

[*Special Star Correspondence.*]

MOUNT OLIVE, N. C., May 7.—Mount Olive was again visited by a destructive fire Sunday night, and the loss will aggregate about $4,000, half of which is covered by insurance. The fire was discovered about midnight in the loft of an old hotel on southeast corner of Main and East Centre streets and spread quickly, though the people of the town responded promptly to the alarm and worked heroically until the fire was under control. The hotel building was completely destroyed, with several stores on the first floor and a number adjoining.

J. O. Cobb and wife occupied rooms in the upper story of the hotel. Their furniture and household goods were totally destroyed, though they had insurance amounting to $150.

Other losses were as follows:

Henry Chelney, groceries, loss $300, no insurance.

M. W. Pope, groceries, loss $300, no insurance.

J. D. Highsmith, groceries, loss $700, insurance $300.

W. D. James, market and restaurant, loss $100, no insurance.

Harper Quinn, groceries and general merchandise, loss $800, insurance $300.

W. D. Dawson, barber shop, damage slight, no insurance.

Jim Walker, jewelry store, damage slight, no insurance.

J. A. Westbrook, general merchandise, loss about $2,000, insured.

R. F. Ashford, colored, restaurant, loss $100, no insurance.

W. W. Loftin, stables, loss slight, no insurance.

Miss Alice Simmons, damage slight, no insurance.

The damage will result mostly to the merchants as at this particular time, the strawberry season, they do their largest business.

The fire is supposed to have been of incendiary origin though there is no clue to the perpetrator o' the deed.

It was only with the greatest effort that Westbrook's store was saved, after the shutters and doors were burned off.

A DANGEROUS HYPNOTIST

People think a man is sometimes when the real secret of his influence is good taste in Dress and being well dressed at all times. There is nothing that lends that air of swelldom and distinguished appearance to a man as a Suit of Clothes made and fitted perfectly by an Artist Tailor. That is the secret of our Success. We are Artists in our trade. OUR LINE OF NEGLIGEE SHIRTS ARE SWELL.
